ARCHBISHOP FOR EPISCOPAL CHURCH

Institution May Supercede Bishop Tuttle.

Clergy Have Frowned Upon the Idea, but House of Deputies May Cause a Reconsid-

REPUBLIC SPECIAL Boston, Mass., Oct. 17 .- A change in the canons of the Protestant Episcopal Church in the United States, which may depose the Right Reverend Daniel Sylvester Tuttle, Bishop of Missouri, from his position as Presiding Bishop, will come before the General Convention of the church, now in session here, to-morrow, and its advocates are working strenuously but quietly for its success in the House of

Already the Bishops of the church have discussed the matter in their meetings here and the project was defeated by a substantial majority. However, the deputies, or the laity, have yet to be heard from on the question, and it is predicted that they will adopt the new canon, their action to be followed by a reconsideration of its action by the House of Bishops. At present the office of Presiding Bishop is the highest in the church in this country and is filled by seniority, Bishop Tut-tle being the oldest in point of years and service in the United States.

and service in the United States.

Now, however, it is planned to have, instead of the office of Presiding Bishop, a position similar to that of the Archibishop of Canterbury over the church in England, and to make the title either that of archbishop or primate. It is planned to fill this office by election, rather than senority, and also to establish an archiepiscopal see in the United States, the incumbent of which will have jurisdiction over all questions of church administration, as does the Archbishop of Canterbury in the Church of England.

The question was agitated before the last General Convention, but was sidetracked. It has not slumbered since, however, and its advocates have been busy among clergy and influential latty. At first the movement was confined to the high-church party, but of late many low-churchmen have been won over to the idea.

PLAN GREAT CATHEDRAL. —Michael Voelker of Grover dropped dead yesterday morning in Manchester, supposedly from heart disease. An inquest will be held to-day to determine the cause of death. Voelker was 71 years old and of earth Voelker was 74 years old and unmarried.

The quarterly statement of Sheriff E.C. Hencken was filed with the County Court yesterday, showing receipts amounting to \$1.021.16 and expenditures of \$200.

Marriage licenses were issued in Clayton to Thomas J. Mikel of Weilston and Anna Sherman of Pattorville, John P. Brown and Anna M. Bend of St. Louis, Clay DeVinnev and Augusta Godedohann of St. Louis, George Denton and Bianche Sweeney of St. Louis, William Kenny of New Haven, Mo. and Mary McClese of Rolla, Mo.; William Frank of No. 1230 Armstrong avenue and Matilda Matthews of Byron, Mo.; Robert C. Carr of No. 1710 Hickory street and Lillie Garrett of Jonesboro, Mo.; Frank H. Barnes of No. 430 Cook avenue and Frances M. Schless of Tonawanda, N. Y., and to J. the idea, So far has the movement gone that the first holder of the new dignity has been selected by its sponsors in the person of Bishop Lawrence of the diocese of East-

Bishop Lawrence of the diocese of Eastern Massachusetts, and his pame has met
with much favor among the deputtes. He
is personally extremely popular among his
feliow Bishops and the elergy. With his
name also is linked the plan of erecting in
Boston a magnificent cathedral worthy the
dignity of the proposed primacy or archbishopric, on a scale rivaling some of the
most noted church institutions in England
or Europa.

Already there is a fund of more than
\$1,000.000 available for the purchase of a
suitable site in Boston, this sum having
been left by the will of Miss Mary Sophia
Walker, and tentative plans have already
been drawn for the building. With an
archiepiscopal see established in Boston
it is figured that there would be no difficulty in securing contributions for the
erection of a magnificent church building.
In its last issue The Churchman strongly
advocates the new plan in an editorial
which sums up the necessity of having an
executive head for the church in the United States, and alludes to the changed attitude of many leading churchmen on the
question.

With one exception the names of the persons indicted are withheld, as the defendants are not in custody and captages have not been served by the Sheriff's

Referring to crime in the county, the Grand Jury says, in the partial report: "We recommend that the Sheriff appoint more deputies to run out the note rious characters which infest the summer resorts, Delmar Garden, Creve Cocur Lake and other places, where inefficient guard has been furnished during the season. The appointment of enough deputies for these places is imperative." The report is signed by Henry C. Hel-

mering, foreman, and J. H. Dietrich, secretary.

The indictment given out contained the

names of Arthur Forsythe, Raiph Sager and William Young. They are charged with stealing copper wire from the Louisiana Purchase Exposition Company in sufficient quantities to constitute grand larceny.

Helmering says a final report probably will be made some time next week.

WARE ISSUES STRICT ORDER

Pension Clerks Must Deport Themselves According to Rules.

REPUBLIC SPECIAL Washington, Oct. 17. - Commissioner Ware of the Pension Bureau, before his departure yesterday for Kansas, whither he goes on politics bent, caused to be placed in all parts of the burear an order that has not been kindly received by the clerks. The order requests the resignation of any pension clerk who may have overstayed a sick leave of thirty dr.ys, provided he or she has had the annual thirty days' leave. It is announced that the order will be enforced rigidly.

ted States, and alludes to the changed attitude of many leading churchmen on the question.

The visit of the Archbishop of Centerbury to this country, and his presence at the convention, is also responsible for a change of feeling on this question in the minds of many deputies and low-church clorics. As one of the converts to the plan puts it:

"His visit and the opportunities of close contact with him suggest that the cvils of executive organization, of which we have complained for years, are incidental, end not essential, and that we cannot develop as a national church until we use the same common sense that obtains in all business and in all governments.

The election of the commissioner is said to have been precipitated by a woman clerk. This clerk, it seems, was transferred to the Patent Office, when she disappeared for several months, later returning to the Penson Office. No record, for some reason, was made of her return. Each office thought her in the other. Then the discovery was made and her resignation demanded.

BULLET PIERCES CITY HALL WINDOW

Misses Thomas Flaherty of the Board of Public Improvements Only a Foot.

Thomas E. Flaherty, draftsman in the office of the Board of Public Improvements, narrowly escaped being hit yesterday afternoon b ya stray bullet, which plerced the heavy plate-glass east window near which he was working in the board office, on the third floor of the City Hall. He was bending over the drafting table, which is placed directly in front of the window, when the bullet struck the glass. The hole in the window was cut

as cleanly as though done by a drill. Pieces of the glass, slivered off by the sbock, were driven to different parts of the room.

Although it is almost certain that the builtet passed through the glass and fell inside the room, it could not be found. Judging from the cleanly cut hole in the window, the builtet was evidently fired from a rifle. It also struck the window almost perpendicular, and was either fired from a nupper story of some downtown building or from a long distance.

The plate glass was more than a quarter of an Inch in thickness, showing that the builtet must have had considerable velocity. as cleanly as though done by a drill. Mr. Flaherty is of the opinion that the bullet did not miss him more than a foot, although he does not remember hearing it strike inside the room. A broken spot in the plustering near the ceiling of the room shows where the bullet probably imbedded itself.
